

projectread® LINGUISTICS

Linguistics curriculum by Language Circle Enterprises® is accelerated phonics for intermediate and secondary students. It builds upon a foundation of systematic phonics, using morphology, phonology, vocabulary, and spelling to explore the written word and educate students who are struggling to master the reading process. Activities are specifically tailored to 4th grade – adult-aged learners and are designed to help students explore the building blocks of language.

Through the study of sound/symbol recognition, syllabication, word building, sentence composition, story reading, and kinesthetic/tactile memory, students are able to build a richer understanding of oral and written language.
